

“शुद्धता ही वरीयता”

**Purity is our Priority**

**Why Choose Divyamrit Raw Honey?**

- **Natural & Pure:** Harvested from the pristine Himachal region. It is 100 % pure & Natural.
- **Completely Raw & Unprocessed:** Our honey is not heated, so it retains its natural enzymes, antioxidants, and beneficial properties.
- **Unmatched Taste & Quality:** The unique combination of Nectar from Rosewood, Banmasa, and Kari Patta flowers provides a distinct, rich, and delicious flavor.
- **Pollen Grain Rich:** Pollen grains have potential health benefits. These boost immunity, prevent infection, ease menopause symptoms, and maybe even lower the risk of conditions like heart disease, liver disease etc.
- **Hand Packed by Women :** We promote women empowerment. Our honey is hand packed by women in completely hygienic manner.

Ajwain Lychee Jamun Fennel

### HOW IT IS MADE:

Bees collect nectar from a variety of wildflowers.

The nectar is stored in the bee hives where enzymes begin to break it down.

The bees fan their wings to evaporate excess water, thickening the nectar into honey.

The honey is stored in hexagonal beeswax cells, where it continues to mature.

We harvest the honey without heating or processing, preserving its raw, natural form.

Divyamrit Honey is placed in premium glass jar. It is Unheated, Unprocessed, Unpasteurised, Original Raw Honey.
